Enhancements to Essent Online MI Ordering

Effective Date: March 2, 2014

We are pleased to announce the latest enhancements to our Essent Online MI Ordering.

Highlights of Changes

» **New Default Settings on MI Ordering Profile**

To simplify your mortgage insurance application entry, we've provided an additional default on the MI Ordering Profile screen that lists our affordable mortgage insurance products. If you typically use one of the offerings when ordering with Essent, you can opt to designate it as a default. When you set a default, your selection will automatically appear in your application. Defaults can be modified within a submission, if needed, and they will revert to the default values on your next application.

» **Essent Products Available for Selection in MI Information Section**

We've enabled you to select one of our affordable mortgage insurance products within the MI Information Section for both delegated and non-delegated submissions. You have the flexibility to select the product on an application-by-application basis if it makes more sense than setting it as a default.

We are confident that these latest enhancements will improve your Essent Online user experience. We will continue to make changes to Essent Online in response to your feedback and whenever we believe we can improve the submission process. If you have any questions about them, please contact your Essent Account Manager or Customer Support at 855.282.1483 or EssentOnlineHelp@essent.us.

Of course, if you have any questions regarding your existing Essent Online MI Ordering user account or if you need a new Essent Online MI Ordering user account, please contact Customer Support at 855.282.1483 or EssentOnlineHelp@essent.us.
